Medical Spending Account Information

Happy New Year...wait... not quite yet! It may not be 2009 but it is quickly approaching. Before the New Year rings in, it is time for families to evaluate their Medical Spending Accounts (also known as a MSA or Flex-Spending Account). Money in this type of account is "use or lose" and you'll want to make sure you've fully used all your available funds or benefits before the end of 2008.

That's why we're writing to you today. Many families find that at the end of the year, they have not been able to use all of the monies they have elected to set aside in their flex spending account. We wanted to remind you that orthodontic treatment is an acceptable expense for reimbursement from a MSA or flex spending account. Contact us today to schedule a complimentary exam, schedule appointments to begin treatment, or to make arrangements to utilize any remaining funds for 2008. We'll be happy to help in any way we can.
