Fry Orthodontics Celebrates 40 Years of Smiles

OVERLAND PARK, KS - Fry Orthodontic Specialists is excited to celebrate 40 years of providing excellent orthodontic service in Kansas and Missouri. Their commitment to the community has allowed them to serve over 40,000 patients as well as 500 dental professionals and their families.

"We are honored to have played a role in creating smiles for so many children and adults in the neighborhoods and communities we serve. We've enjoyed getting to know families and appreciate their continued loyalty to our practice," says Dr. Jeremy Fry.

Since 1977, Fry has been a leader in orthodontic advancements, which have improved the comfort and appearance of braces while drastically reducing treatment times to an average of 16 months. Fry is a Diamond+ provider of Invisalign for adults and teens.

For 40 years, the Fry team has been providing quality customer service, educating the community on the importance of oral health, and building lasting relationships. They strive to make every patient's treatment affordable, comfortable, and on time. They also offer free retainers for life to ensure their "Fry" smile stays beautiful.

###

Your Smile is Just The Start! Fry Orthodontic Specialists offers state-of-the-art orthodontic treatment for teens and adults including Invisalign, metal, and ceramic braces. They currently have 13 convenient locations throughout Kansas and Missouri.
